## NOTICE Military Service Act, 1917.

### EMPLOYMENT OF MEN IN DEFAULT UNDER THE MILITARY SERVICE ACT.

The following Regulations, recently approved by the Governor General in Council, impose strict obligations upon every employer TO ASSURE HIMSELF THAT EACH OF HIS EMPLOYEES OF MILITARY AGE AND DESCRIPTION IS IN POSSESSION OF DOCUMENTS PROVING THAT HE IS NOT IN ANY WAY IN DEFAULT UNDER THE MILITARY SERVICE ACT.

An employer who is charged with having a defaulter in his employ must be able to prove THAT THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR MILITARY AUTHORITIES TO THE EMPLOYEE IN QUESTION WERE PRODUCED FOR HIS INSPECTION at the time when the employee was taken into his employment, and that it was reasonably established to his satisfaction that the man was not in default under the Military Service Act. It should be clearly understood that the Canadian Registration Certificates given on June 22, 1918, at the time of general registration, in no way define the status of a man under the Military Service Act.

### REGULATIONS.

"106. Every person who employs or retains in his service any man who has deserted or is absent without leave from the Canadian Expeditionary Force, or who is in default in the performance of any obligation or requirement for reporting or for military service imposed upon him by the Act or Regulations, or any proclamation thereunder, shall be guilty of an offence punishable on summary conviction by imprisonment not exceeding six months, or by a penalty of not less than One Hundred Dollars, and of not more than Five Hundred Dollars, or by both such imprisonment and fine, unless such person prove that he made due inquiry and that THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR THE MILITARY AUTHORITIES TO THE MAN SO EMPLOYED OR RETAINED IN HIS SERVICE WERE PRODUCED FOR HIS INSPECTION, and that it was reasonably established to his satisfaction by such inquiry and papers that the man was not a deserter or absent from the force without leave, or in default in respect of any of the obligations or requirements aforesaid."

"Every school at least one bond" is the cry that will help to carry the 1918 Victory Loan to the Sunday Schools' million dollar objective. Above is a reproduction of the shield to be presented to each Sunday school subscribing a bond.

## Instructions Regarding Care of Sick Persons

Since Thousands of People are Nursing Influenza Patients in the Province the following Instructions will be of Value :

1. Fresh air is the most essential requisite to the comfort and well-being of patients, no matter how ill.
2. Rest in bed for three days after fever has gone, is urged to avoid complications.
3. Pneumonia cases should not be kept in the same room with uncomplicated influenza cases.
4. Nourishing food at regular intervals.
5. Plenty of water or lemonade.
6. General unworried service. (Avoid chattering, nagging or questioning.) Anticipate wants of sickest patients; convalescents usually ask for what they want. Keep the patients in isolated room, in separate beds. Keep patients in bed all the time. (This means that patients must not go to the bathroom. Two or three pillows arranged step fashion, the lowest well under the shoulders, will make breathing easier. Keep the arms and shoulders well covered. Ventilate the room freely. At the outset headache and backache are frequent. Cold cloths (moist but not dripping) to the head, changed frequently, give some relief.

Avoid anything that might cause the slightest chill.

Care of mouth. A month wash every few hours and cold cream to the lips help to keep the mouth in normal condition.

If the patient is extremely weak, swab the teeth carefully with moistened cotton applications three times daily.

Cough. Patient should keep mouth covered when coughing. Paper napkins or three thicknesses of toilet paper used only once, are safer and better than rags, or handkerchiefs. Keep a small paper bag pinned to bedside, within easy reach of patient's hand to receive used napkins. Change bag at least twice daily, or whenever it becomes full.

The invisible spray from the mouth and nose during coughing and sneezing is as dangerous as visible exhalation. Convalescent patients can be masked; weak patients are annoyed by them.

Food. For the unhappy, feverish patients, liquid diet, hot or cold, as preferred milk lemonade, weak tea and coffee, broths. For convalescent and patients not feverish, soft diet, gruels, cooked cereals, milk toast, jellies, soft boiled eggs, etc.

Food may be kept warm in thermos bottle.

All patients should drink some water every hour when awake.

Precautions. All mouth washes, bathwater, exeta, and ueneten liquid food should be thrown into the toilet by the attendant.

All bags, napkins, scraps of ueneten food, mouth swab, etc., should be wrapped in clean newspaper before being carried to the kitchen to be destroyed by burning.

All linen, sheets, masks, towels, etc., should be submerged in a large kettle of cold water in the sickroom, or put in a pillow slip, or laundry bag. This can be safely carried to the kitchen stove, and when contents have been boiled five minutes anyone may finish caring for the linen. When attendant cannot stop to wash her hands door knobs, faucets, etc., should be protected by scraps of newspaper, which may be destroyed after each using. Attendants must be constantly masked, must wear big all over aprons in sickroom, changing it to a different one always before entering any other part of the house. Attendant must keep facilities for washing her own hands, soap, nail brush and paper towels, in clean place and never touch the patient's utensils without after cleansing her own hands thoroughly. Running water is better and safer than a basin of weak disinfectant kept for the hands alone.

Everything used for the patient should be kept separate from the supplies for the rest of the household. This means dishes, bed linen, bath wraps, towels, face cloths, rocking chair, etc.

Families can help visiting nurses and aids by having hot water, towels and newspapers ready when nurses are expected.

## SILVER IN THE YUKON.

## Coldest and Hottest.

Yukon has struck a dead end, says note. It is silver. It rains there. Silver gives promise of big things to the Yukon. Beyond the fact that it is an extensive belt of it in that territory. It has been known to exist in the zone from the Cape district, on the Upper Stikine River, to the Yukon, a little north of Dawson. These two fields are 15 miles apart. Both are developing fast.

Years ago the first silver was located in the Yukon. But it would not be opened in a day. Much hard work was necessary. Men of iron grit and black tackling it, and they have not given it up, and they will not give it up. The glow on the horizon has more silver to them to-day than ever before. It began to look as though the dawn is at hand.

A little more hard work, a little more perseverance and the silver of the Yukon may yet put that territory in the class with Colorado, Nevada, Utah and Mexico. The silver and gold brought immense wealth to these countries, and now hundreds of millions.

Silver prospecting and mining. There are a few indications at all, it's not so stubborn a game in the Yukon as it was in the past. The gold prospects, and already some big silver, the promise for the opening of a big camp of maybe two or more times is most encouraging.

No more auspicious time has come for the silver in the Yukon. In this he has it over the gold-seeker. The gold is marketable to-day only once a week. The silver duct will purchase only half to-day what it will in normal times. The silver is worth to-day 99 cents an ounce, or twice what it was before the war. Hence, there is much premium on the silver product.

The silver and gold are being well in having its geologists in the Yukon field. Investigation of the silver this year. It is possible to know the staff will look into the silver fields in the Mayo district. They will visit the Twinville field later on. If any properties are met with in previous years because of the grade, the fact that the product is worth twice what it was before the war will lift a great deal of the once low-grade property to a profitable level to-day.

## Canadiana Doubly Dead.

Protesting that because they are paying income taxes in Canada, American residents of Yukon, and Arthur, states a Washington dispatch, have asked Yukon to cancel the American taxes, which have also been levied upon them. American residents in Canada are not the only ones who have to pay taxes. They are also levied upon those who have been resident in Great Britain and Canada. The Canadian liable to British income taxes, despite the fact that they pay Canadian income taxes, too. Temporary residence gives no exemption, and many of the best of Canadian residents are soldiers who have been sojourning in the Old Country since the war have been obliged to pay both Canadian and British income taxes. They are also levied upon those who possessed Army pay of Canadian soldiers overseas is exempted from British taxation, but persons in Canada over \$600 a year according to the value of their estate are liable to pay whatever in Canada are levied that due from the residents in England. The British tax ranges from about 11 per cent. For the smallest taxable incomes applicable to 25 per cent. Numerous prestige have been made, but so far the Bill stands.

## History is Contradictory.

With obvious desire to intensify the interest of its story, a Saskatchewan newspaper asserts that the largest halibut known to history fell in a recent visitation of the Yukon. It was a Major. The halibut was some halibut. Halibut weighing from six to eight pounds. The halibut was named after the halibut in 1719, and the missionary priest, Fr. Buisson, records the fall of the halibut in 1847 of a block of ice as large as a millstone which took three days to melt. In 1892 also an Alaskan village reported the fall of a halibut weighing half a ton and 10 hundredweight over, which required eight men to move it.

## Scholarship for Soldiers.

J. B. Carruthers, of Kingston, has presented \$2,000 to Queen's University to found a scholar scholarship for the special benefit of Canadian soldiers and in memory of his second son, Major J. B. Carruthers, O.C. 10th Battalion, B.C. Brigade, C.E.F., killed in action at Passchendaele, Belgium, in 1917. The late John Carruthers, son of the late John Carruthers, known as Carruthers Hall.

## Wined for Inflections of Food.

### Burdett.

Burdett is fortunate in its small number of "Flu" cases. We are glad to report progress from all stricken ones.

Mr. and Mrs. Ed. Owen returned last night from Vegreville and report many flu cases there.

Say! did you hear the story of the teacher and the mouse? Ask Mr. Lombard.

Rev. Fred. A. Hutchings is making a house to house canvass in Township 10, 11 and 12 in order that no cases of the flu may terminate fatally through lack of care.

Mrs. F. Harth, who has been visiting her parents in the north has returned home.

Mr. and Mrs. Henderson, Baby Henderson and Miss Henderson are sick with the influenza.

A. H. Rygg returned home last Thursday and is feeling much better.

Burdett is rather quiet these days. People only coming in town for necessities being afraid of the epidemic.

Others reported sick from the "flu" are Mrs. L. Fogend and the Redmond family.

"RISE, HE CALLETH THEE"  
My dear People: In the place of public worship next Sunday, look up John 14. L. Read is until your and vests in it. Then for an anthem, read Isaiah 36. 3, and let one of your hymns be "He leadeth me." This epidemic is war-born and originated in Germany so let us fight it even as our boys are fighting "over there". In this time of stress and fear, when remedies you shoot and helpers fail, let us rest quietly with calm souls "in the multitude of his mercies". Fear favors infection, so, "let not your heart be troubled". Let us make this coming Sabbath a day of special prayer for the stricken ones, the overworked helpers and the growth of our own strong faith.

With the sincere wishes of  
Your Pastor.

Terms 10 per cent. cash and balance according to conditions to be made

### Local and General.

The following Red Cross supplies were shipped from Bow Island on November 15th, - 54 army covers, 22 flannel shirts, six suits pyjamas, 33 pairs of socks, 12 cotton band, 12 large amp socks, two scarves, two aprons and 50 p.p. bags. Total 233 pieces.

Bow Island is extremely fortunate in the few cases of influenza so far registered. Today the town is practically clear. Unfortunately as much cannot be said for the country, some portions of which it is stated, having quite a few cases. As stated in last week's issue, the local board of health have taken over the new school and are now using it to house sufferers of the epidemic. We understand there are now about nine patients, all of whom were brought in from outside points.

Thone Aamodt Carpenter, the wife of Leo Carpenter and daughter of Mr. and Mrs. Ole Aamodt passed away Saturday, Oct. 26, at Wilton, N. D., following an attack of influenza. She was born in Norway on February 16, 1887 and on June 19, 1912, became the wife of Leo Carpenter. To this union were born four children, Ralph, Albert, Earl Ole, Richard Leo and Harry Oscar. Besides these children and her husband she also leaves her mother and four brothers, G. O. Aamodt of Mackenzie County, O.
